Title:	ROTARY FEEDBACK MECHANISM FOR A TOY		

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. §1.97(b)

Listed on the attached Information Disclosure Citation Form PTO/SB/08A are documents which may be material to the patentability of this application and/or for which there may be a duty to disclose in accordance with 37 C.F.R. §1.56.

Copies of the documents were previously cited by and/or submitted to the U.S. Patent and Trademark Office in related Application No. 10/071,519, filed February 8, 2002 (the "prior application"). The present application relies, under 35 U.S.C. §120, on the filing date of the prior application. Therefore, under 37 C.F.R. §1.98(d), copies of the U.S. patent documents are not enclosed, but will be provided on request. However, copies of foreign patent documents and non-patent literature are enclosed.

Enclosed is a copy of Republic of China (Taiwan) utility model patent publication 215169 as well as a copy of an English translation of the Taiwan Office Action asserting the relevance of the reference. This reference is believed to be duplicative of other references being cited but is disclosed for completeness of the record.

The filing of this Information Disclosure Statement shall not be construed as an admission that any of the listed documents constitutes prior art, nor as an admission against interest in any manner. U.S. Patent No. 5,762,554 (Sui) appears to be the most relevant reference.

No fee is believed to be due in connection with the filing of this Information Disclosure Statement, however, the Commissioner is hereby authorized to charge any

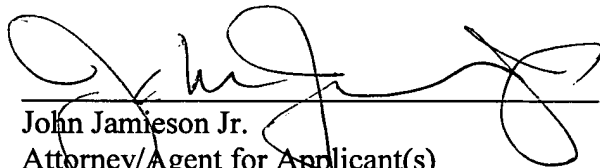

deficiencies or credit any overpayments to Deposit Account No. 50-1017 (Billing No. 204110.0368).

It is respectfully requested that this Information Disclosure Statement and the documents listed on the attached Form PTO/SB/08A or 08B be considered and acknowledged by the Examiner in connection with the above-identified patent application, be made of record therein, and that the listed documents be cited in the issued patent.

Respectfully submitted,

Ernest D. Baker et al.
